

BIS Product & Material Category Starter Dataset

Official-source starter dataset for building a BIS RAG knowledge base. It is not a complete inventory of every BIS standard, licence, or certification. BIS's Know Your Standard portal supports searches by IS number or keyword and exposes standards, amendments, Gazette notifications, testing/inspection schemes, licences, laboratories, classification and committee information.

Category	Material/Product	IS Number	Standard / scope	Certification / status context
Automobile	Automotive tubes	IS 13098	Tubes for pneumatic tyres	Listed under Scheme-I compulsory certification

Important scope note

This PDF is a verified starter dataset compiled from current BIS official pages searched on August 28, 2026. It should not be represented as the complete BIS universe. BIS maintains a much larger and changing body of standards, licences, laboratories, QCOs, amendments and product manuals. The Know Your Standard portal is the appropriate authoritative route for expanding each IS number into its associated documents and certification details.
